

Beartooth Billings Clinic

WOUND CARE PROGRAM

WHAT IS WOUND CARE?

Wound healing is an ongoing process that goes smoothly for most patients. For those patients whose experience does not go smoothly, the wound healing process can be a frustrating journey.

- Our goal at Beartooth Billings Clinic is to provide the best possible care for those suffering hard to heal wounds.
- At Beartooth, we utilize a patient driven approach through a multi interdisciplinary team lead by our Certified Wound Specialist Tony Christensen, DPT CWS, CSCS.
- We look at each individual case with regard to how to best heal the current wound as well as address any factors that could create future problems.
- Our team approach addresses wounds of multiple stages and causes.

TREATMENT INCLUDES:

Advanced dressing application using research based methods including:

- ▶ Biological dressings
- ▶ Dressing management

Removal of devitalized tissue by:

- ▶ Sharp debridement
- ▶ Enzymatic or non selective debridement

Chronic swelling management

- ▶ Compression dressings

Tony Christensen,
DPT, CWS, CSCS, CKTP

Certifications: Certified Wound Specialist, Kinesio Taping Practitioner, Strength and Conditioning Specialist

We strive to offer the best possible healing environment for our patients. We are proud to have staff trained and certified by the American Board of Wound Management. We also currently utilize Molnlycke products due to their high quality.
