

Patient Label

Medicare

Below are descriptions of the different visit types you can have with your provider – and their costs. These descriptions will help you understand what Medicare covers for free and what you will have to pay for.

Problem-focused visit | *Deductible and coinsurance costs apply*

Includes: **Medication refills, exam and care acute and chronic conditions and lab reviews**

Annual Wellness-preventative visit | *No cost to patient* | *Does NOT include: Medication refills, exam or discussion of medical conditions*

1. *Welcome to Medicare* | **Covered once within the first 12 months of enrollment:** Review your medical history, social health history, available wellness services, screening tests and wellness plan.
 2. *Annual Wellness* | **Covered once every 12 months:** Update your wellness plan and perform a health risk assessment. Other services may be performed free of charge, based on your gender and health history.
-

Combined visit | *Separate costs apply (provider may be able to accommodate)*

Separate costs apply: No costs for wellness-preventative visit (if once every 12 months); problem focused costs go toward deductible, co-pay or coinsurance.

Our providers recommend separate wellness-preventative and problem-focused visits to provide enough time to address all of your health needs.

Physical Exam | *Discouraged as patient pays 100%*

A visit not related to treating an illness, symptom. Complaint or injury (it may include checking the lungs, ears and other body parts)

By signing below, I declare that I am aware of the purpose for my appointment today and will be responsible for any charges that occur if I need to discuss, manage or treat acute or chronic medical conditions, review labs or refill medications, or receive a physical examination.
